"Fuzzy" is one of my favorite Crackers, daughters being wide over the loin and rump, although this picture doesn't show her well, with very nice feet, legs and mammary system. Fuzzy also has superior udder texture and capacity.

"Fancy" is just that. A very fancy Cou-Clair, a color pattern we don't often get here. She was shown just once in 2008 at the Central WA state fair where she placed Junior Grand Champion for her first leg.

Fancy is bred to for March freshening.

"Rusty" is a very nice Saanen. She was shown a few times as a 2-yr-old going Grand twice for two legs. One of those being a Dist. 7 Saanen Specialty with hot competition. The rest of the times shown she was in the AOP class and was up against the 2007 National Champion Sable doe. Rusty was Reserve each time in this competition. Rusty finished her Championship this year as a 3-yr-old her first time out. Rusty also claimed Best Udder Of Show at the 2008 Central Washington State Fair.

Rusty is level over the top line with a wide flat rump and has a very nice mammary. She walks on super feet that need very little maintenance. I am quite impressed with Rusty's overall mammary system. She has what I consider to be perfect teats that milk out easily by hand or machine. .

"Aimee" has freshened and is stunning as a 2 year old second freshener! 2010 Show season she was shown once. 1st place in a huge and competitive Recorded grade class at the Spokane Interstate Fair. 2011—1xGCH, 3xRGCH & 1xBUOB (6x1st) so far. This doe is a great example of what our Senior Herd Sire, Makya, is throwing for us in our herd when used on a vast array of does.

"High-Wire" easily earned her junior leg her first time out. She was also Best Jr Doe in Show at a very large Alpine show in Boise Idaho. A very correct kid that is now a lovely 4-yr-old. Will be Bred to Lover Boy for 2012 March freshening.
